Save time and increase security with CheckEase!

♦ Eliminate the need for pre-printed check stock.

♦ Change the look of your checks without purchasing new check stock.

♦ Save money by using the same check stock even when:

~Your bank changes names.
~You change banks.
~ You move to a new location.

As a cost savings solution you can use the rest of your existing pre-printed laser check stock before switching to blank laser check stock.

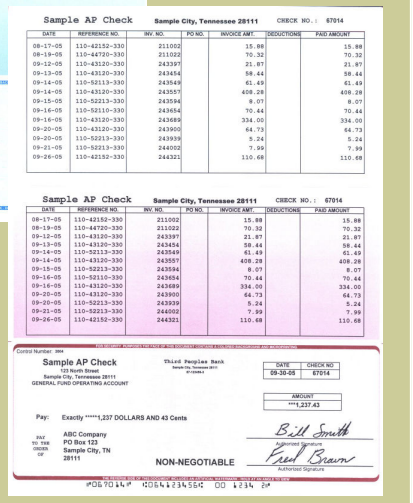
CheckEase

Before

After

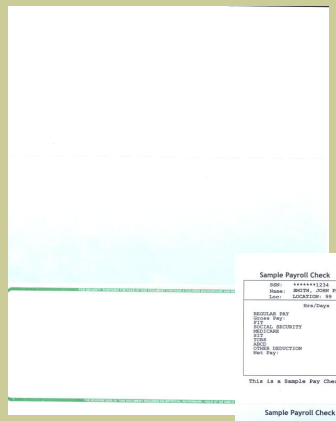


Your complete check printing solution.

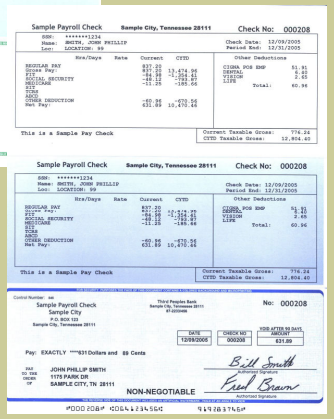
CheckEase will completely print the face of your checks including:

~ Account number
~ Bank routing information
~ Payment data
~ Logo
~ And authorized signatures!

Before



After



♦ Security is not an issue, as a login and password are required to access the module.

♦ An audit log is always running in the background keeping track of all check printing activities.

♦ A control number is printed on every check adding even more security.

♦ Digitized signatures are securely held on a CD.

♦ For extra security the signatures are encrypted and a login and password are required to unlock them.

Advantages of CheckEase:

~ Use the same check stock for all your accounts or multiple check stock for multiple accounts.

~ Completely print the face of checks including authorized signatures.

~ Change the look of your checks or alter the information on your checks without purchasing new check stock.
